Science**
Senior High School - ICT

Commonwealth Highschool
Junior High School - ICT

**Commonwealth Elementary
School**
Elementary School

About Me

I am a Bachelor of Science in Information Technology (BSIT) student with a strong passion for technology, particularly in web and full-stack development. My technical skills include PHP, HTML, CSS, JavaScript, and Bootstrap, and I am currently enhancing my knowledge by exploring mobile development frameworks such as Flutter and React.js. I am highly motivated, eager to learn, and continuously strive to improve both my technical and professional skills. Through this research journey, I aim not only to excel academically but also to prepare myself for future opportunities in the IT industry, where I can contribute meaningfully and grow as a developer.

Certifications
